Kinzua State Park Bridge

Kinzua Sky Walk

“One of the top 10 most Beautiful Skywalks in the World”

This engineering masterpiece, is the re-invention of the original Kinzua Viaduct following

the tornado of 2003. The Kinzua Viaduct, first constructed in 1882, soared 301 feet high and 2,053 feet across, and was the highest and longest railroad bridge in the world.

History of the Bridge

In 1882, **General Thomas Kane**, decorated American Civil War Veteran, and President of the New York, Lake Erie and Western Railroad and Company, had rich coal deposits south of the Kinzua Gorge. But since his customers were to the north, Kane needed to cross the valley. Kane needed a bridge.

Chief Engineer Octave Chanute accepted the challenge. He contracted the Pennsylvania firm of Clarke, Reeves & Company to design and fabricate the bridge. Adolphus Bonzano designed a wrought iron bridge using his “Phoenix Column,” an engineering breakthrough that enabled tall structures to resist vibration and buckling.

Kinzua is the Seneca word for “fish on a spear.”

The bridge was pre-fabricated in Phoenixville, near Philadelphia, and transported to the site for erection. Once the sandstone foundation piers were in place, 125 men, working 10-hour days, completed the construction in just 94 days.

Three and one-half million pounds of iron and \$275,000 later, the first steam-powered train rolled across delivering General Kane’s coal to market.

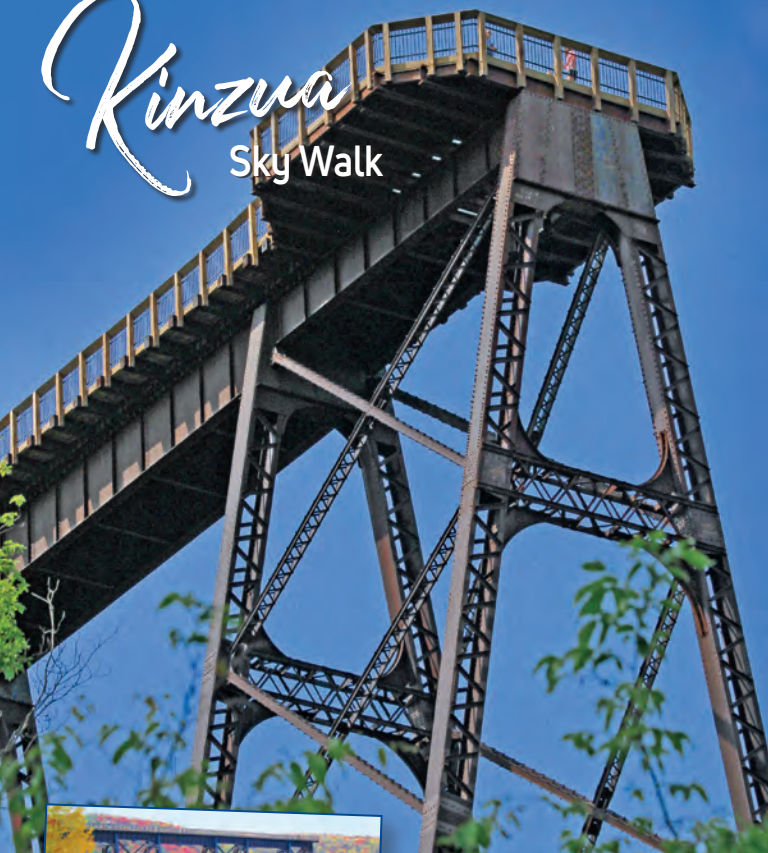

Standing 301 feet tall (24 feet higher than the Brooklyn Bridge), the Viaduct quickly became a tourism destination. Walking out on the bridge was the next best thing to flying. Sightseers from around the globe visited the majestic bridge-to experience the thrill of “Walking the Tracks Across the Sky.” In 1900, the viaduct was rebuilt of steel to handle the heavier freight trains carrying coal, lumber, and oil. For generations, visitors and freight crossed the Kinzua Gorge on this National Civil Engineering Landmark.

On July 21, 2003, an F1 tornado tore through the forest heading for the bridge. Hundreds of trees were ripped from their roots, only nine of the original towers remained standing following the tornado. Following a massive restoration project, six of the towers left standing were reinvented as the Kinzua Sky Walk. Today visitors can walk out 624 feet, at a height of 225 feet, and peer down through a partial glass floor for an awesome 360-degree view of the Kinzua Gorge.

Kinzua Sky Walk

Towering into the Kinzua Gorge 624 feet, at a height of 225 feet, visitors can walk the length of the skywalk and then peer down below through a partial glass overlook.

The Kinzua Sky Walk is open from 8 am to dusk, 7 days a week.

Admission is free to both the park and the skywalk.

Discover the Power of Nature and the Power of Man

Located at the edge of the Kinzua Gorge, the new 11,000 sq. ft. building has two exhibit halls which highlight the innovative, can-do spirit of the region and of General Thomas L. Kane and engineer Octave Chanute who built the original Kinzua Viaduct in 1882. The power of energy, engineering, and the environment collide in spectacular ways!

Family-friendly, the Center welcomes school field trips and motorcoach groups with advance reservations requested. Open Year Round. Admission is FREE.

North Country National Scenic Trail

Backpacking and Hiking – With 96.3 miles of completed trail marked with blue blazes, the North Country Trail is the longest trail in the Allegheny National Forest (ANF). It is one of three designated National Scenic Trails in Pennsylvania and provides vistas of the Allegheny Reservoir as it passes through rock outcroppings, open hardwoods, old growth forests and stands of hemlock.

A trailhead with a parking area is located along Rt. 346 west of the City of Bradford. From this northern point, situated along the New York-Pennsylvania state line near Willow Bay Recreation Area, the North Country Trail winds south to Tionesta Scenic Area. The trail then heads west to Dunham Siding, then south to the ANF boundary and onto Cook Forest State Park.

Perfect for backpacking, the northern section from Rt. 346 to the Red Bridge Recreational Area is about 30 miles, so allow two to three days.

Birding Trails

Location is everything, they say, and that goes for the Allegheny National Forest Region and birds. More than 250 species of birds can be found in the Allegheny National Forest, including bald eagles and osprey.

Ruffed grouse, the state bird of Pennsylvania and the wild turkey are relatively common in the Allegheny National Forest. You may find them in mixed forest growth areas. Look closely for the red-eyed vireo, ovenbird, American redstart, and eastern towhee.

Photograph by Tom Hunttoon

Photograph by Rocky Holland

Warblers are plentiful during the spring and summer months. Look for black-throated green, magnolia, chestnut-sided, yellow-rumped, black-and-white, hooded, and yellow warblers. The hardwood forests are home to such birds as the yellow-bellied sapsucker, scarlet tanager, and hermit thrush.

Heron (*Ardea herodias*) Widespread through much of North America, Herons are often seen standing silently along rivers, streams, and lakeshores. Look for them in the Redbridge Area, along the stream in Westline, Buzzard Swamp, and the Allegheny Reservoir.

Bald eagles (*haliaeetus leucocephalus*) are among the largest birds of prey. They may weigh up to 14 pounds and have seven-foot wingspans. Bald eagles are readily identified by their white heads and tails; however, they don't attain this plumage until five years of age. They nest in large trees near water. Bald eagles have been sighted throughout the Allegheny

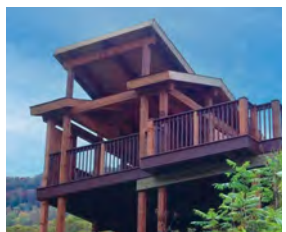

Reservoir, Tunungwant Creek, Tionesta Creek, Oswayo Creek, Kinzua Creek, Willow Creek, Marilla Reservoir and north of Eldred along the Allegheny River.

An excellent interpretive trail, Timberdoodle Flats, is a 1.4 mile loop trail located along Rt. 59 southwest of Bradford. Tis trail is named for the American woodcock, also known as the timberdoodle, which uses both the forest and open areas for nesting.

Other suggested sites for birding are **Marilla Reservoir**, Rt 346 in the Willow Bay Area connecting to NY Rt 280 along the northern portion of the Allegheny Reservoir, **Sugar Bay** portion of the Allegheny Reservoir, **Buzzard Swamp** south of Kane, **Hamlin Lake** and the **Shawmut Trail** in Smethport, and along Rt. 59 at the **Big Bend Birding Overlook** just past the Kinzua Dam.

Waterfalls in the Allegheny National Forest

Bent Run Waterfall - Located along Rt. 59, in the Allegheny National Forest. Access is from a small parking lot at a bend in the road, across from the eastern edge of the Kinzua Dam parking lot. The waterfall flows especially well during heavy rains and spring run-off, but the flow can dwindle down to a trickle quite often. Bent Run is a short hike, full of nooks and crannies and easy climbing.

Hector Falls - A strange geologic formation surrounds this waterfall, with a height of only around 22 feet, it is set amidst a collection of large boulders. This waterfall plummets from a rectangular shaped rock face and has a lost world type of feel. When the water levels are high, the water flows off two different faces, when low the flow goes down to a trickle. Parking for the falls is located about 2 miles down a dirt road, which starts in the town of Ludlow on Route

6 in McKean County. Falls location: 41.6853N -78.975067W.

Water Trails

Allegheny River Trail - Enter the Allegheny River in Roulette, Pennsylvania at the intersection of Burlson and Brophy Avenues (41.778858N -78.163206W), then 16 miles to Dunbar Road (41 51.192N - W 078 19.224W), then 5.8

miles to the Larrabe Y where Potato Creek joins the Allegheny River (41.901384N -78.384720W). To Gleason Hollow Launch (78.341986N-42.050615W), which is the first water access in New York State. Then 2.5 miles to Linn Launch (78.356944N -42.050615W) at 1060 Steam Valley Road, Portville, NY 14770. Linn Launch is handicap accessible. *Difficulty level is rated easy.*

Potato Creek Water Trail -

Three canoe and kayak launch areas.

Unload your canoe behind the ball field in Crosby on Route 46 (41.748614N -78.393427W) to float 6.4 miles on the Potato Creek to East Smethport on Route 6. From there float 10.9 miles to Coryville off Champlin Hill Road towards Turtle Point (41.88187N

-78.389500W). From Coryville you can float another

2.7 miles to reach the Larabee Y (41.901384N -78.384720W), where you have great access to the Allegheny River. Special Regulations on State Game Lands.

Beaches

Allegheny Reservoir Beaches – Kinzua Beach has no daily fee and is located across from the Kinzua Wolf Run Marina; Kiasutha Beach has a daily fee; both provide picnic tables, grill stands, restrooms and garbage collection.

Fishing

The Allegheny National Forest offers the angler a variety of fishing opportunities from small native brook trout to trophy fishing for muskie, pike and walleye in the Allegheny Reservoir. The Allegheny Reservoir, a 12,000-acre impoundment on the Allegheny River, is the largest reservoir in the Forest.

Fly fishing: The Forest abounds with hundreds of miles of stream trout fishing from the large tailwater fishery at the base of the Kinzua Dam to the tiny brook trout streams on the Allegheny Plateau. Kinzua Creek is a local favorite. Grey fox, march brown, green drakes and native brown trout are found in these waters.

Canoeing and Kayaking

The Allegheny National Forest provides camping and launching facilities in Pennsylvania. In New York the Seneca Nation of Indians (716-945-1790), Cattaraugus County (716-354-2615), and Allegheny State Park (716-354-9121) offer similar facilities.

The southern-most tips of the Red Bridge arm and Sugar Bay of the Allegheny Reservoir provide an excellent place for canoeing and kayaking. Access to these areas can be gained by using the Kiasutha Boat Launch or the unimproved boat launch at Longhouse (FR 609).

Picnic Areas

5 Near the Reservoir – Rimrock Overlook – Willow Bay – Kiasutha – Kinzua Beach – Jakes Rocks Overlook

All picnic areas offer a picnic table, grill, restroom and garbage in the summer season; Daily fees at Willow Bay and Kiasutha, no fees at Rimrock Overlook, Kinzua Beach and Jakes Rocks Overlook.

Four Of Fun Seasons

What Does Your
Perfect Trail Look Like?

**Enjoy nature along
with dining, shopping,
and historic sites.**

Spring

The green of Spring is different in the forest – light and fresh with a touch of sunshine on the leaves. Wildflowers add to the color; the songbirds return to fill the air with music. Plan a scenic drive to admire the rebirth of spring. Renew your spirit & soul along the way!

Summer

Lush, green forests. Cool, mountain streams. Scenic overlooks. Clear, blue skies above. Perfect for hiking, biking and enjoying the great outdoors. At night, the stars twinkle against an inky sky – picture perfect!

Autumn

In Autumn, nature puts on the show of the year. Warm, sun-soaked days. Crisp starlit nights. Enjoy an endless canopy of crimson and gold. Prime leaf season in this “neck” of the woods is late September, early October. Make your reservations early for this performance!

Winter

White blankets cover the hillsides and streams. Ice sparkles on tree limbs. Snowshoes, ice skates and cross-country skis take you along forest paths. Plan an overnight at one of our warm and cozy B&Bs, hotels or inns.
