ENJOY THE TRAIL!

Willow Creek ATV Trail is a 10.6 mile loop trail traversing scenic, forested hills on the Bradford Ranger District of the Allegheny National Forest. It is for the enjoyment of ATV and motorcycle riders of intermediate skill level.

WILLOW CREEK
ALL-TERRAIN VEHICLE (ATV) TRAIL
CUSTOMER SERVICE – The Bradford Ranger Station, located at the junction of SR 59 & SR 321, has additional books and materials to help you enjoy the Forest.
EMERGENCY – Call 911. The nearest hospital is 13 miles east of the trailhead, in Bradford, PA. The nearest pay telephone is four miles northeast on SR 346.

SAFETY MESSAGES
• Become familiar with Forest Service regulations and State ATV Laws.
• Wear a helmet and eye protection at all times when operating an ATV.
• Carry passengers only if your ATV is designed for them. (i.e., a Class II ATV)
• Speeds of over 25 mph are prohibited.
• Drive within your level of skill and ability.
• Be aware of other users of various ages and skill levels on the trail.
• Rides in two-way travel areas should keep right and be alert for oncoming traffic.

The trail is divided into two loops by Pleasant Drive (State Road 3005/337). The trail is suitable for both motorcycle and ATV use. However, due to steep side slopes, the ATV user may experience difficulty in some sections. Please exercise extra caution in these areas. The southern loop is 10.8 miles and is rated MORE DIFFICULT. The northern loop is 11.1 miles and is rated MOST DIFFICULT. Both trails are ONE-WAY travel only except where otherwise posted.

There are numerous private and public campgrounds near the Willow Creek ATV Trails. They offer restrooms, drinking water, and some provide wash showers and utility hookups. The following National Forest campgrounds are located within a half-hour drive of these trails.

- Marienville ATV Trail: Loleta and Beaver Meadows Recreation Areas.
- Rocky Gap ATV Trail: Hearts Content and Buckhorn Recreation Areas.
- Timberline ATV Trail: Twin Lakes Recreation Area.
- Willow Creek ATV Trail: Tracy Ridge and Willow Bay Recreation Areas.

NOXIOUS WEEDS
Noxious weeds generally possess one or more of the following characteristics: aggressive and difficult to manage, poisonous, toxic, paralytic, a carrier or host of serious insects or disease and being native or new to or not common to the United States or parts thereof. (FSA 2008)

ANF Trail users can help prevent the spread of noxious weeds by:
• Washing equipment before arriving at the trail and after trail use.
• Staying on designated trails.
• Learning how to identify noxious weeds such as purple Loosestrife, Multiflora Rose, and Giant Hogweed.

To learn more, please contact the nearest ANF office.
